NOVEMBER 2018

If you have children you may be able to understand me when I say that my oldest daughter really suprised me. About three or four months ago, she came to me for help. Her and her husband, Robbie, wanted to promote a bike ride to raise money for The Ronnie Thames Foundation. I had never heard of it but it seems that it is quite a big and noble organization. They provide education to anyone who wants to help prevent fire in their homes and they also support the firemen.

The big suprise was that she wanted to do it in less than three months from the time she asked me about it. My first thought was, she won't even get on my trike not to mention a two wheeler, how is she going to get bikers to join and support at the last minute. What I learned, "Never count out a determined woman."

What I was sure was a terrible idea, and on my way to the starting point, my thought was it may have four bikes and that would be it. As Gomer Pile use to say "Surprise-Surprise-Surprise." When I arived there was not four bikes or even three bikes, but many bikes. As a matter of fact it turned out to be 24 bikes with about 30 total riders and co-riders to make the last minute ride a total success.

SPECIAL THOUGHTS AND CONCERNS

Let's keep our sick in your thoughts and prayers as they continue to get well. Also remember Don Jenkins as he recovers from his back surgery, hope he is feeling better soon and out of pain. Those with upcoming surgeries or hospital procedures that we know about are Barbara Thayer, surgery on November 26th.; Larry Clemmer, hip replacement on November 26th. Let's keep those members that you know about in our prayers and get well wishes. Again, if anyone knows of any of our chapter family members who are having problems let us know so we can contact them.

Continue to keep our country and all our protectors in your thoughts and prayers. Without these people what kind of a world would we have.

Happy Thanksgiving to each and everyone of our Chapter members and their family.
